Anthony Salisbury

Date of Joining Industry: March 1985
Date of Retirement: April 2014
Former Role: IS Planning & Governance Manager

Committees/Activities:
None

Election Statement:
For the past five years, I have served as a Panel Member alongside the Group Trustee Board. This has involved attending Group Trustee meetings in order to gain experience of the operation and management of the Group Pension Scheme and undertaking training in the role and responsibilities of a Trustee.

I began my career at National Grid working in Corporate Audit, which gave me a good grounding across the business and wide experience of financial controls and corporate governance.

Following Audit, I worked as Revenue Assurance Manager at an overseas joint venture, implementing and improving business processes and computer systems in order to enhance financial controls and combat fraud.

Returning to the UK, I became IS Investment Governance Manager. Serving on the IS Investment Committee, I worked with senior management from across the business to assess risk and prioritise the investment of funds.

After leaving the company, I completed a teaching qualification and have worked in adult education for the local community.

I have also worked as a volunteer advisor with Citizens Advice, providing impartial and confidential advice to anyone in need.

Currently, I am a company director of a film production company with responsibility for financial controls.
